

Hiroshima Day

Friday August 1, 2008

63rd commemoration of Hiroshima-Nagasaki Grafton Peace Pagoda

NO MORE WARS
Abolish all nuclear weapons worldwide

Na Mu Myo Ho Ren Ge Kyo

Vast arsenals of nuclear weapons remain in high states of readiness — deployed or easily available. Proliferation is gaining momentum, and the human family still faces the peril of extinction. This is because a handful of old-fashioned leaders, clinging to an early 20th century worldview in thrall to the rule of brute strength, are rejecting global democracy, turning their backs on the reality of the atomic bombings and the message of the hibakusha. Here in the 21st century the time has come when these problems can actually be solved through the power of the people. The message born of that agony (the bombing of Hiroshima and Nagasaki) is a beam of light now shining the way for the human family. ~Tadatoshi Akiba, mayor of Hiroshima 2007
